

Scholarship Retention Data

Students Matriculating In	Number Entering with Conditional Merit Scholarships	Number Whose Conditional Merit Scholarships Have Since Been Reduced or Eliminated
2015*	65	22
2014	67	58
2013	51	34

*Note: The scholarship renewal criteria was updated for the Fall 2015 entering class and will control all subsequent classes. The grade point average shall be the basis for determination of the student's first-year class rank. If the student's first-year class rank is within the top fifty percent (50.00%) of the class (based upon completion of a minimum of 23 credits), then the student's Merit Scholarship shall be renewed in full for the student's second year. If the student's first-year section and/or class rank is in the bottom fifty percent (50%), the student's Merit Scholarship shall not be renewed.
